Version 3.29

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name	:	TB LECHSYS MIX BASE
Product code	:	L0290088

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the	:	Paints, varnishes and enamels
Substance/Mixture		
Chemical nature	:	Colourless clearcoat

1.3 Details of the supplier of the safety data sheet

Company	: Lechler SpA
	Via Cecilio 17
	22100 Como- CO-
Telephone	: +39031586111
Telefax	: +39031586206
E-mail address	: safety@lechler.eu
Responsible/issuing person	

1.4 Emergency telephone number

Tel. +39-031-586301 - This telephone number is available during office hours only. (8.00-18.00)

This telephone number is available during office hours only.

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Flammable liquids, Category 3	H226: Flammable liquid and vapour.
Skin irritation, Category 2	H315: Causes skin irritation.
Specific target organ toxicity - single	H336: May cause drowsiness or dizziness.
exposure, Category 3	
Specific target organ toxicity - single	H335: May cause respiratory irritation.
exposure, Category 3	
Chronic aquatic toxicity, Category 2	H411: Toxic to aquatic life with long lasting effects.

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

Revision D	ate 06.05.2019 Print Date 31.03.2020
: Warning	
: H226 H315 H335 H336 H411	Flammable liquid and vapour. Causes skin irritation. May cause respiratory irritation. May cause drowsiness or dizziness. Toxic to aquatic life with long lasting effects.
: Prevention: P210 P261	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Avoid breathing vapours.
Response: P362 + P364 P370 + P378	Take off contaminated clothing and wash it before reuse.
	: Warning : Warning : H226 H315 H335 H336 H411 : Prevention: P210 P261 Response: P362 + P364

Hazardous components which must be listed on the label:

• 64742-95-6 Hydrocarbons, C9, aromatics

2.3 Other hazards

None known. No hazards resulting from the material as supplied. The information required is contained in this Material Safety Data Sheet.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Chemical nature : Liquid solution

Hazardous components

Chemical name	CAS-No. EC-No. Registration number	Classification (REGULATION (EC) No 1272/2008)	Concentration [%]
Hydrocarbons, C9, aromatics	64742-95-6 918-668-5 01-2119455851-35-0006	Flam. Liq. 3; H226 STOT SE 3; H335, H336 Aquatic Chronic 2; H411 Asp. Tox. 1; H304 EUH066 Note P	>= 25 - < 30
xylene	1330-20-7	Flam. Liq. 3; H226	>= 15 - < 17,5

Version 3.29

Revision Date 06.05.2019

For the full text of the H-Statements mentioned in this Section, see Section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures

General advice	 When symptoms persist or in all cases of doubt seek medical advice. Never give anything by mouth to an unconscious person.
If inhaled	 Remove to fresh air. Keep patient warm and at rest. If breathing is irregular or stopped, administer artificial respiration. If unconscious, place in recovery position and seek medical advice.
In case of skin contact	 Take off all contaminated clothing immediately. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners. Put shower on working place
In case of eye contact	 Irrigate copiously with clean, fresh water for at least 10 minutes, holding the eyelids apart. Seek medical advice. Put eye-washer on working place Remove contact lenses.
If swallowed	 If accidentally swallowed obtain immediate medical attention. Do NOT induce vomiting. Keep at rest.
4.2 Most important symptoms and o	effects, both acute and delayed
Symptoms	: No information available.
Risks	: No information available.
4.3 Indication of any immediate me	dical attention and special treatment needed
Treatment	 The first aid procedure should be established in consultation with the doctor responsible for industrial medicine. Seek medical advice.

Version 3.29

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media	:	Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. Keep containers and surroundings cool with water spray.
Unsuitable extinguishing media	:	Do NOT use water jet.
5.2 Special hazards arising from	the	substance or mixture
Specific hazards during firefighting	:	As the product contains combustible organic components, fire will produce dense black smoke containing hazardous products of combustion (see section 10). Exposure to decomposition products may be a hazard to health.

Cool closed containers exposed to fire with water spray. Collect contaminated fire extinguishing water separately. This

be disposed of in accordance with local regulations.

Fire residues and contaminated fire extinguishing water must

5.3 Advice for firefighters

Special protective equipment	:	Wear self-contained breathing apparatus for firefighting if
for firefighters		necessary.

must not be discharged into drains.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions	 Solvent vapours are heavier than air and may spread along floors. Ensure adequate ventilation. Use personal protective equipment. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. Ventilate the area.
----------------------	--

6.2 Environmental precautions

Environmental precautions	: Try to prevent the material from entering drains or water
	courses.
	If the product contaminates rivers and lakes or drains inform
	respective authorities.

6.3 Methods and materials for containment and cleaning up

: Clean with detergents. Avoid solvents.
Contain and collect spillages with non-combustible absorbent
materials, e.g. sand, earth, vermiculite, diatomaceous earth
and place in a suitable container. The contaminated area

Version 3.29	Revision Date 06.05.2019	Print Date 31.03.2020
	should be cleaned up immediately w decontaminant. One possible (flamm comprises water (45 parts by volume (50 parts)/concentrated	mable) decontaminant
	(d: 0.880) ammonia solution (5 parts alternative is sodium carbonate (5 pa	
	Pick up and transfer to properly labe Clean contaminated surface thoroug Dam up. Soak up with inert absorbent materia hazardous waste.	jhly.

6.4 Reference to other sections

Refer to section 15 for specific national regulation.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling	 Avoid exceeding the given occupational exposure limits (see section 8). Use only in area provided with appropriate exhaust ventilation. Avoid contact with skin, eyes and clothing. Smoking, eating and drinking should be prohibited in the application area. Avoid inhalation of vapour or mist. For personal protection see section 8. Thoroughly mix before using After using, store in a well-sealed container
Advice on protection against fire and explosion	 Prevent the creation of flammable or explosive concentrations of vapour in air and avoid vapour concentration higher than the occupational exposure limits. When transferring from one container to another apply earthing measures and use conductive hose material. No sparking tools should be used. The product should only be used in areas from which all naked lights and other sources of ignition have been excluded. No smoking.

7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers	 Observe label precautions. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Solvent vapours are heavier than air and may spread along floors. Vapours may form explosive mixtures with air. Electrical installations / working materials must comply with the technological safety standards.
	the technological safety standards. Keep away from sources of ignition - No smoking.
	Store between 5° an 35°C in a dry, well ventilated place away

Version 3.29	Revision Date 06.05.2019	Print Date 31.03.2020
	from source of heat, ignition and direct Store in accordance with the particular	
Advice on common storage	: Keep away from oxidizing agents and s materials.	strongly acid or alkaline
7.3 Specific end use(s)		
	: This information is not available.	

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Components	C	CAS-No.	Value	Control parameters	Update	Basis

Personal protective equipment

Respiratory protection	Apply technical measures to comply with the occupational exposure limits. This should be achieved by a good general extraction and -if practically feasible- by the use of a local exhaust ventilation. If the occupational exposure limits cannot be met, in exceptional cases suitable respiratory equipment should be worn only for a short period of time. Respirator with combination filter for vapour/particulate (EN 141)
Hand protection	Solvent-resistant gloves (butyl-rubber) recomended. For prolonged or repeated contact use protective gloves. Protective gloves complying with EN 374. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. If used in solution, or mixed with other substances, and under conditions which differ from EN 374, contact the supplier of the CE approved gloves. Barrier creams may help to protect the exposed areas of skin, they should however not be applied once exposure has occurred. Skin should be washed after contact. Wash your hands and put on barrier creams
Eye protection	Chemical resistant goggles must be worn.
Skin and body protection	Skin should be washed after contact. Personnel should wear protective clothing. Flame retardant antistatic protective clothing. Workers should wear antistatic footwear.

Environmental exposure controls

General advice	: Try to prevent the material from entering drains or water
	courses.
	If the product contaminates rivers and lakes or drains inform
	respective authorities.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance	: liquid
Odour	: solvent-like
Flash point	: > 23 - 55 °C

Version 3.29	Revision Date 06.05.2019	Print Date 31.03.2020
Ignition temperature	: not determined	
Lower explosion limit	: No data available	
Upper explosion limit	: No data available	
Auto-ignition temperature	: Not applicable	
рН	: not determined	
Freezing point	: Not applicable	
Boiling point	: not determined	
Vapour pressure	: 1,000 hPa at 50 °C	
Density	: 1,1622 g/cm3	
Water solubility	: not determined	
Partition coefficient: n- octanol/water	: No data available	
Solubility in other solvents	: not determined	
Flow time	: 50 s 6 mm Method: ISO/DIN 2431 '84	
Relative vapour density	: Not applicable	
Evaporation rate	: not determined	
9.2 Other information		
Solids by weight	: 59,55 %	
Volatile organic compounds (VOC) content	: 40,45 %	

SECTION 10: Stability and reactivity

10.1 Reactivity

None reasonably foreseeable.

10.2 Chemical stability

The product is chemically stable.

10.3 Possibility of hazardous reactions

Hazardous reactions :	:	No dangerous reaction known under conditions of normal use.
-----------------------	---	---

10.4 Conditions to avoid

Conditions to avoid : Our products were manufactured in compliance with safety

Version 3.29	Revision Date 06.05.2019	Print Date 31.03.2020
	standards to avoid decomposition and defined conditions. Taking the product type into account, i the product in its original packaging th it.	t is advisable to leave
10.5 Incompatible materials		
Materials to avoid	: Keep away from oxidizing agents, stro strongly acid materials in order to avoi	
10.6 Hazardous decomposition	products	
Hazardous decomposition products	: Carbon dioxide (CO2), carbon monoxi nitrogen (NOx), dense black smoke.	de (CO), oxides of
Thermal decomposition	: Not applicable	

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Product		
Acute inhalation toxicity	:	Acute toxicity estimate: > 20 mg/l, 4 h, vapour, Calculation method
Acute dermal toxicity	:	Acute toxicity estimate: > 2.000 mg/kg, Calculation method
Skin corrosion/irritation	:	Repeated or prolonged contact with the mixture may cause removal of natural fat from the skin resulting in desiccation of the skin., The product may be absorbed through the skin.
Further information	:	The concentration of each substance should be borne in mind in assessing the toxicological effects deriving from the preparation.
Components:		
xylene :		
Acute oral toxicity	:	LD50: 5.627 mg/kg, Mouse(male)
Acute inhalation toxicity	:	LC50: 6700 ppm, 4 h, Rat(male),
Acute dermal toxicity	:	Acute toxicity estimate: 1.100 mg/kg, Converted acute toxicity point estimate
	:	LD50: > 5.000 mg/kg, Rabbit

SECTION 12: Ecological information

12.1 Toxicity

Toxicity to fish

Remarks:

:

Version 3.29	Revision Date 06.05.2019	Print Date 31.03.2020
	No data is available on the product itself.	
Toxicity to fish		
xylene	: LC50: 2,6 mg/l Exposure time: 96 h	
	Species: Oncorhynchus mykiss (rainbow ti	rout)
Toxicity to fish (Chronic toxicity xylene) : NOEC: > 1,3 mg/l Exposure time: 56 d Species: Oncorhynchus mykiss (rainbow tr	rout)
Toxicity to daphnia and other a xylene	quatic invertebrates (Chronic toxicity) : NOEC: 1,57 mg/l Exposure time: 21 d Species: Daphnia magna (Water flea)	
12.2 Persistence and degradability		
Biodegradability	: No data available	
12.3 Bioaccumulative potential		
Bioaccumulation	: No data available	
12.4 Mobility in soil		
Mobility	: No data available	
12.5 Results of PBT and vPvB assess	ment	
	s no components considered to be either pers ent and very bioaccumulative (vPvB) at levels	

12.6 Other adverse effects

Additional ecological information	 The product contains dangerous substances for the environment (see chapter no 3). The concentration of each substance should be borne in mind in assessing the toxicological effects deriving from the preparation
	preparation.

SECTION 13: Disposal considerations

13.1	Waste	treatment	methods

Product	 The product should not be allowed to enter drains, water courses or the soil. Disposal together with normal waste is not allowed. Special disposal required according to local regulations.
Contaminated packaging	: Empty containers should be taken to an approved waste

Version 3.29	Revision Date 06.05.2019	Print Date 31.03.2020
	handling site for recycling or dispose According to the European Waste C are not product specific, but applica The Waste code should be assigned the user, the producer and the wast The following Waste Codes are only	Catalogue, Waste Codes tion specific. d in discussion between re disposal company.
SECTION 14: Transport inforr	nation	
14.1 UN number

14.5 Environmental hazards

ADR

Environmentally hazardous : yes

IMDG

Marine pollutant	:	yes

IATA

Environmentally hazardous : no

14.6 Special precautions for user

Not applicable

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code Not applicable for product as supplied.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

REACH - Candidate List of Substances of Very High Concern for Authorisation (Article 59).	: Not applicable
REACH - List of substances subject to authorisation (Annex XIV)	: Not applicable
REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, preparations and articles (Annex XVII)	: Banned and/or restricted
64742-95-6	Hydrocarbons, C9, aromatics
MAL-Code-Number	: 3-3 (1993) 810-m3 air/10 g
PR-Number (DK)	: 4031518

Version 3.29

Revision Date 06.05.2019

Risk classification according to VbF	: Exempt see user defined free text
Water contaminating class	: highly water endangering
(Germany)	VWVWS A4

This safety datasheet complies with the requirements of Regulation (EC) No. 830/2015. Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures

15.2 Chemical safety assessment

No data is available on the product itself.

SECTION 16: Other information

Full text of H-Statements referred to under sections 2 and 3.

EUH066	Repeated exposure may cause skin dryness or cracking.
H226	Flammable liquid and vapour.
H304	May be fatal if swallowed and enters airways.
H312	Harmful in contact with skin.
H315	Causes skin irritation.
H332	Harmful if inhaled.
H335	May cause respiratory irritation.
H336	May cause drowsiness or dizziness.
H411	Toxic to aquatic life with long lasting effects.
